ABOUT ELIZABETH

Elizabeth Hunter is the Aesthetic Medical Director for Hunter House Clinic. Elizabeth undertakes all of the Medical Cosmetic treatments in Hunter House Clinic.

Elizabeth is a fully qualified Independent Nurse Prescriber, RN, BSc (Hons). She is registered with the Nursing Medical Council NMC [registration number 85G0409E] and is a member of the British Association of Cosmetic Nurses and the Association of Nurse Prescribers.

Elizabeth is fully trained and certified in all of the Medical Cosmetic treatments offered and regularly participates in master classes to ensure her practice incorporates the current best practice.

Elizabeth is fully registered and insured to carry out Medical Cosmetic Treatments.

"I am passionate about helping people feel good about themselves and every day I feel lucky to do a job I love and that inspires me.

Part of my role as an Aesthetic Medical Practitioner is to give people honest and professional advice and help them through the decision making process.

My ethos is very much about helping people feel good about themselves whilst taking a 'less is more' approach."

Elizabeth Hunter

BACKGROUND

Elizabeth started working in the medical profession in 1985 as a Nurse, Midwife, Health Visitor and Practice Nurse.

In 2005 Elizabeth became interested in Anti-ageing treatments and decided to move away from the NHS into private practice. In 2006 she embarked on advanced training in Aesthetic Medicine, at a centre of excellence in Harley Street, London with some of Europe's leading specialists.

In 2006 Elizabeth started her own company Hunter Beauty Limited to provide Medical Cosmetic treatments within Suffolk. Since then Elizabeth has run clinics across Suffolk culminating in the opening of her own purpose-built clinic, Hunter House Clinic in Martlesham Heath which opened in 2013.

CONSULTATION

The initial consultation is a chance for you to meet Elizabeth Hunter. Elizabeth carries out all of the Non Surgical Cosmetic procedures at the clinic.

The consultation is free and is an opportunity for you to find out more about the treatments available and what they can do for you. This is also a time for you to ask any questions and for Elizabeth to answer any queries that you may have.

Elizabeth will discuss a personal plan fully assessing the options available to you with your circumstances and budget in mind. The plan is tailored to your needs and the results you are seeking.

All consultations at Hunter House Clinic are completely confidential. Elizabeth will always provide you with her honest, professional advice and opinion.

After the Initial consultation there is no obligation to have a treatment.

Elizabeth is available to then answer any further queries via telephone or email. Elizabeth encourages you to do your research and even have a second consultation if needed.

We believe the consultation is the most important step in your journey. It is designed to enable you to fully discuss and understand your treatment without any obligation or pressure to proceed until you feel completely happy and ready.

“Cannot recommend her highly enough! For me it has been truly life changing”

Natalie T

YOUR JOURNEY

Hunter House Clinic provides only the finest treatments and outstanding standards of client care. From the first moment of contact we aim to provide you with an exceptional experience. We will endeavour to answer your questions promptly and honestly.

After your initial contact you will be invited to a free private consultation whereby Elizabeth will understand your needs and put together a personal treatment plan tailor made for you. Hunter House Clinic provides a comfortable and relaxing environment to ensure you are feeling at ease during your time with us.

We always provide aftercare to help ensure you achieve the best results from your bespoke treatment. Elizabeth offers review appointments as standard practice following any treatments undertaken at no extra cost.

If you wish to discuss anything at anytime please feel free to contact us and we will more than happy to advise you.

Throughout your journey you can trust that you are in expert hands.

"Fantastic experience. Love and trust Elizabeth with all my procedures. Faithful and happy client".

Alice M

ANTI WRINKLE INJECTIONS [BOTOX]

WHAT ARE ANTI WRINKLE INJECTIONS?

Anti-wrinkle injections are commonly referred to as 'Botox', short for Botulinum toxin. This is a naturally occurring protein that causes the muscles of the face to relax, consequently smoothing out wrinkles. It is the UK's most popular cosmetic treatment for the removal of wrinkles.

ARE ANTI-WRINKLE INJECTIONS SAFE?

Botulinum toxin has been in medical use for more than four decades and it is administered in such a way that it only affects the muscles it is injected into. As long as a qualified medical professional administers it, the risks are extremely minimal.

WHAT PRODUCT IS USED?

Elizabeth's choice of Botulinum toxin is genuine Botox® by Allergan. Elizabeth does not use any inferior substitutes.

WHAT DOES THE TREATMENT INVOLVE?

Elizabeth will outline the area she is treating and make a series of small injections into the relevant muscles. The injection process itself will only take several minutes.

DOES THE TREATMENT HURT?

Prior to the treatment Elizabeth will apply some topical anaesthetic cream to reduce discomfort. The procedure is largely pain free, with the exception of mild discomfort experienced due to the small needle used.

ANTI WRINKLE INJECTIONS [BOTOX]

HOW LONG DOES IT LAST?

You will notice an improvement in your lines/wrinkles after 10 days. This can however vary depending on the person as results can kick in quicker on some people. The result will last approximately 3-4 months.

WHO ARE ANTI-WRINKLE INJECTIONS SUITABLE FOR?

Anti-wrinkle injections are the treatment choice for those who wish to reduce their forehead lines, frown lines or wrinkles around their eyes known as crows feet.

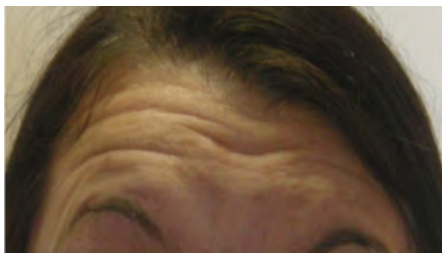

AFTERCARE

You may notice some soreness in the injection site after the treatment but this should subside quickly. You can carry on with your day as normal, although we advise that you avoid strenuous activity/saunas until the next day and avoid facial treatments for 1 week.

CONTRA-INDICATIONS

Anti-wrinkle injections are not suitable for:

- anyone with severe allergies
- pregnant women
- women who are breastfeeding

BEFORE

AFTER

DERMAL FILLERS

WHAT ARE DERMAL FILLERS?

Dermal fillers are a naturally occurring hyaluronic acid gel that is injected into the face to combat various concerns. Dermal fillers can be used to smooth wrinkles around the lips, define lip borders and replace volume in the lips. It can lift, rejuvenate and plump out cheeks to create more defined and prominent cheekbones.

ARE DERMAL FILLERS SAFE?

The dermal fillers used at Hunter House Clinic are researched, safe, gentle, natural and harmless. The treatment must be administered by an experienced medical professional otherwise results can be uneven and create an unsightly appearance.

WHAT PRODUCTS ARE USED?

The filler of choice used by Elizabeth is Juvéderm® Vycross. Juvéderm® is the leading facial filler available on the market which includes a built-in anesthetic.

WHAT DOES THE TREATMENT INVOLVE?

Elizabeth will inject small quantities of filler into the areas where you have lines/wrinkles or indents. The treatment takes around 20 minutes.

DOES THE TREATMENT HURT?

Prior to the treatment Elizabeth will apply some topical anaesthetic cream to reduce discomfort. The procedure is largely pain free, with the exception of mild discomfort experienced due to the needle used.

DERMAL FILLERS

HOW LONG DOES IT LAST?

Dermal fillers typically last 12-18 months. This is dependant on the person, the area treated and the dermal filler used.

WHO ARE DERMAL FILLERS SUITABLE FOR?

Dermal fillers are the treatment choice for those who wish to add volume to the skin or lips, smooth moderate to severe facial wrinkles and folds. It can also be used to improve the appearance of scars or dents on the face.

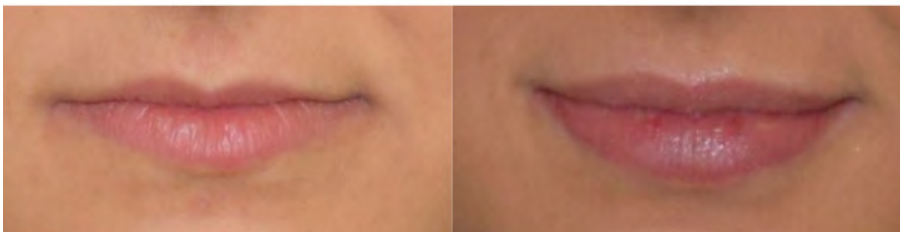

AFTERCARE

You may notice some swelling, redness and bruising after the treatment but this should subside quickly. You can carry on with your day as normal, although we advise that you avoid strenuous activity/saunas until the next day and avoid facial treatments for 1 week.

CAUTIONS / CONTRAINDICATIONS

Dermal fillers are not suitable for:

- anyone with severe allergies
- pregnant women
- women who are breastfeeding

BEFORE

AFTER

DERMAROLLER

WHAT IS DERMAROLLER?

Dermaroller (also known as micro-needling) can be used to treat the face and body and provides an effective way to reduce the visibility of lines, wrinkles, acne scars and sun damage. It is a well-known, hugely popular treatment that gives outstanding results within four to six weeks. Better still, your skin will continue to improve over the months that follow. Dermaroller treatment is great for smoother, brighter, and more youthful skin.

IS DERMAROLLER SAFE?

Dermaroller has an excellent safety profile when used by trained Medical Aesthetic Practitioners such as Elizabeth. It is a high quality sterile single use medical device only available to authorised practitioners and clinics.

WHAT PRODUCT IS USED?

Elizabeth uses genuine Dermaroller by Aestheticare along with medical grade products.

WHAT DOES THE TREATMENT INVOLVE?

Elizabeth will roll the Dermaroller over your skin, puncturing it with thousands of tiny micro-needles. By causing mild damage to your skin in this way, a healing process is triggered that rejuvenates the skin, encourages collagen production, reduces the appearance of lines, wrinkles and imperfections.

DOES THE TREATMENT HURT?

Prior to the treatment Elizabeth will apply some topical anaesthetic cream to reduce discomfort caused by the micro-needles.

DERMAROLLER

HOW LONG DOES IT LAST?

We generally recommend a course of four treatments (roughly one treatment every six weeks).

Results are not immediate however they are long lasting, as increased collagen levels help to rejuvenate the skin.

WHO IS DERMAROLLER SUITABLE FOR?

Dermaroller is suitable for all skin types. However, it can cause sensitive skin to become irritated, so it may not be appropriate for people who suffer from allergies.

AFTERCARE

You may notice some redness but this should subside within 24 hours. You can carry on with your day as normal, although we advise that you avoid strenuous activity/saunas until the next day and avoid facial treatments for 1 week.

CONTRA-INDICATIONS

Dermaroller is not suitable for:

- anyone with severe allergies
- pregnant women
- women who are breastfeeding

BEFORE

AFTER

PDO THREADS

WHAT ARE PDO THREADS?

PDO Threads are a fantastic Non Surgical Cosmetic treatment used on many different areas including the neck and jawline. There have been other thread lift procedures available but the new PDO thread technique is a much more gentle procedure. The threads are inserted, with a very fine needle, just under the skin into targeted areas to produce a tightening effect and a subtle long-term result from new collagen formation.

The sensation of the insertion of the threads is very similar to acupuncture treatment, which can cause a slight stinging sensation. A numbing cream is applied to the skin for 30 minutes prior to the treatment to ease any discomfort.

ARE PDO THREADS SAFE?

PDO Threads have been used in cardiac surgery for over 40 years without any adverse reactions. They do not produce allergic reactions or rejection and do not have any side effects.

WHAT PRODUCT IS USED?

Dermica Threads are made in Switzerland. The needles are EU certified [CE Registration mark] guaranteeing their quality.

WHAT DOES THE TREATMENT INVOLVE?

Elizabeth will choose the specific threads suitable for the area. They are inserted just under the skin with a needle carrying the thread inside.

DOES THE TREATMENT HURT?

Prior to the treatment Elizabeth will apply some topical anaesthetic cream to reduce discomfort. As the threads are inserted just under the skin instead of deep into the layers of the skin, pain is minimal. It can cause a slight stinging sensation similar to acupuncture.

PDO THREADS

HOW LONG DOES IT LAST?

The PDO threads gradually dissolve in 8 months, with the effects lasting up to 2 years. The first effects are visible instantly with a considerable improvement seen at 6-8 weeks when stimulation of collagen has started. The full effect is seen at around 4 months.

WHO ARE PDO THREADS SUITABLE FOR?

PDO Threads are suitable for those who wish to treat their jawline, neck, decollete, eye bags, lip lines, cheeks and forehead.

AFTERCARE

There can be slight redness where the needle entered the skin. There may be some swelling and bruising which may last up to 2 weeks. It is advised to avoid facials and facial /neck massage for 1 week following the treatment and also avoid extreme facial movements.

CONTRA-INDICATIONS

PDO Threads are not suitable for:

- pregnant women
- women who are breastfeeding

BEFORE

AFTER

THE LIQUID FACELIFT [SCULPTRA]

WHAT IS SCULPTRA?

Sculptra is known as the 'Liquid Facelift'. Sculptra is a biocompatible and biodegradable injectable material known as Poly-L-lactic acid that naturally stimulates your cells to produce their own collagen.

Sculptra is a discreet approach to achieving a rejuvenated appearance and once collagen production has been stimulated, natural looking results will be noticeable.

IS SCULPTRA SAFE?

Sculptra has been used successfully for more than 25 years and is gradually, naturally, broken down by the body.

WHAT PRODUCT IS USED?

Sculptra is a product made by Sinclair Pharma. It is an excellent medical grade product used by the NHS as a collagen stimulant.

WHAT DOES THE TREATMENT INVOLVE?

Elizabeth can inject Sculptra into the temples in the upper face, the nose to mouth folds, tear trough, cheeks, the chin, jawline and marionette lines in the lower face.

DOES THE TREATMENT HURT?

Prior to the treatment Elizabeth will apply some topical anaesthetic cream to reduce discomfort. As with all injections there will be some discomfort and Elizabeth will ensure you are comfortable throughout the treatment.

THE LIQUID FACELIFT - [SCULPTRA]

HOW LONG DOES IT LAST?

Sculptra works gradually in a series of treatments. An average of 2-3 sessions with an interval of 4 weeks between sessions produces a refined, more youthful looking appearance.

Sculptra can last for over 2 years.

WHO IS SCULPTRA SUITABLE FOR?

Sculptra is the treatment choice for those who suffer with volume loss due to natural causes of ageing and to rejuvenate their appearance. Sculptra provides an alternative option to traditional surgery.

AFTERCARE

You may notice some bruising, redness, tenderness and small bumps after the treatment but this should subside quickly. You can carry on with your day as normal, although we advise that you avoid strenuous activity/saunas until the next day and avoid facial treatments for 1 week.

CONTRA-INDICATIONS

Sculptra is not suitable for:

- anyone with severe allergies
- pregnant women
- women who are breastfeeding

BEFORE

AFTER

THERMAVEIN

WHAT IS THERMAVEIN?

Thermavein is a technology that has been widely used in the Medical World to treat thread veins. Thread veins are very common and can affect all ages. There are a range of reasons for their appearance which include weather, diet, hereditary, pregnancy, genetics and age.

Thermavein uses a process known as Thermocoagulation which seals the thread vein walls, causing them to disappear.

IS THERMAVEIN SAFE?

A low current of 4MHz is used during the treatment. The low current and the fact that we do not treat the blood means that Thermavein is a safe treatment.

Unlike IPL and Lasers, Thermavein cannot cause loss of pigmentation.

HOW DOES IT WORK?

A tiny probe, the size of a human hair, is rested above the vein to close it together. The next step is to deliver a 0.2 second pulse to seal the vein, the process is repeated along the length of the vein until it is closed. The blood is naturally absorbed into the body and the vein ceases to exist.

The probe is a sterile needle, for single use, which is covered with an insulating sheath which protects the skin, enabling a targeted action, to deliver the treatment with precision.

DOES THE TREATMENT HURT?

The whole process can take up to 15 minutes [dependant on area] and most clients report minimal discomfort.

THERMAVEIN

WHO IS THERMAVEIN SUITABLE FOR?

Thermavein is suitable for those who have thread veins and/or vascular blemishes that they wish to reduce.

CONTRA-INDICATIONS

Thermavein is not suitable for:

- anyone taking anti-coagulants
- pregnant women
- women who are breastfeeding
- anyone who has a pacemaker

AFTERCARE

The skin will feel warm but should calm quickly, this can vary due to individual skin types. Some redness, dryness and tiny micro crusts could be present for a few days which is normal. Avoid exercise and direct sun exposure for the first 48 hours. You may require more than one treatment to achieve optimum results.

BEFORE

AFTER

SKINCARE

Hunter House Clinic is passionate about providing an effective skin regime tailored to suit your needs.

Good skin care is an essential part of a daily regime. We want you to have the best skin you can whether the aim is to improve a symptom or a problem or to simply maintain and protect an even complexion.

Ageing skin

Skin ages every day when it is exposed to UV rays and environmental factors.

As we age our skin becomes less firm and radiant and wrinkles can appear. The skins' laxity and pigmentation can also be affected, contributing to our skin looking older.

Hunter House Clinic uses, stocks and sells a wide range of researched, pharmaceutical grade brands which contain active ingredients to combat and treat various concerns and to maintain glowing skin.

Various skin conditions can be treated at Hunter House Clinic, such as:

- Acne
- Acne scarring
- Pigmentation
- Melasma
- Rosacea
- Skin ageing
- Sagging skin
- Skin imperfections
- Skin tone
- Skin health
- Skin maintenance

SKINCARE

ZO SKINCARE

ZO Skin Health provides results-orientated therapies tailored to meet your specific needs. Delivers clinically proven results, with solutions to maintain healthy skin that is strong, smooth and firm, evenly toned and fully hydrated.

OBAGI SKINCARE

Obagi skincare products are prescription strength formulations which are only available through medical professionals. All of Obagi's products are designed to help the appearance of skin damage, sun damage, premature skin ageing, acne and hyperpigmentation.

GLO-THERAPEUTICS SKINCARE

Glo-Therapeutic delivers personalised and professional skincare solutions by incorporating daily regimes with targeted treatments. Their high levels of active ingredients clinically transform the skin.

HOUSE INFORMATION

SPECIALISED FACIALS

Within our facials we use Glo-Therapeutics, medical grade products containing high levels of active ingredients. These accelerate results and prevent free radical damage, combat inflammation and support skin structure.

GLO REFRESH FACIAL

If time is of the essence then enjoy a half an hour refresh to the skin, or indulge in our deep cleansing and relaxing one hour of pure tranquility.

[30 mins] £30.00

[60 mins] £50.00

GLO RADIANT FACIAL

A mild flower enzyme peel which gently removes superficial dead skin cells whilst stimulating and toning, leaving your complexion glowing and instantly wonderful. For all skin types.

[60 mins] £55.00

GLO REHYDRATING FACIAL

Divine and deeply cleansing facial using an enzyme peel which helps to smooth the skin surface by breaking down and removing skin cell build up, leaving you pampered and positively purified. For oily and acne skin types.

[60 mins] £55.00

GLO REJUVENATING FACIAL

Regenerating and restoring the skins youthfulness with our lactic peel, improving the appearance of fine lines, combating pigmentation and discolouration. You'll look visibly revived. For mature and sun-damaged skin.

[60 mins] £65.00

GLO SENSITIVE FACIAL

This indulgent facial is infused with generous anti-inflammatory ingredients, antioxidants and hydrating benefits. This facial will leave the skin looking nourished and hydrated.

[60 mins] £65.00

VITAMIN C FACIAL

Luxurious facial targeting ageing skin by helping to promote collagen production whilst adding moisture and increasing the skin's luminosity. Your complexion will be left firm and fantastic.

[60 mins] £80.00

SPECIALISED FACIALS

GLYCOLIC PEEL FACIAL

[60 mins] £70.00

A facial including a 30% Glycolic peel. This advanced treatment is aimed at repairing and regenerating the skin. Suitable for all skin types except sensitive.

SALICYLIC PEEL FACIAL

[60 mins] £70.00

A facial including a 30% Salicylic peel. This advanced treatment is aimed at deep cleansing the pores and rejuvenating the skin. Targeted for oily/combo skin.

Microdermabrasion is a technology combining abrasion and massage.

The exfoliation rejuvenates and stimulates the skin. Leaving you with a brighter and smoother complexion.

FACE MICRODERMABRASION

[45 mins] £45.00

Includes face, neck and décolleté, smoothing out uneven skin tone.

REFRESH FACIAL WITH MICRODERMABRASION

[60 mins] £60.00

Treat yourself to smoother skin with our uplifting facial by polishing away unwanted skin cells to create a flawless and fresh image.

ULTIMATE FACIAL WITH MICRODERMABRASION

[75mins] £85.00

A powerful 'resurfacing' facial specially tailored to suit your skin type. By performing a deep exfoliation treatment, it stimulates production of new cells in the deeper layers of the skin aiding in the elimination of dullness. Dramatically smooths, softens and evens skin tone.

'RED CARPET PEEL'

[45 mins] £100.00

The ZO Ossential Stimulator Peel is designed to exfoliate the skin by stimulating cellular turnover to improve skin tone, texture and clarity. The best part is there is no downtime or peeling afterwards, just glowing, healthy skin.

ZO Skin Health Skincare products used for this treatment.

GLO-MINERALS MAKEUP

Let your inner beauty glo.

Glo-minerals offer a medical grade mineral make-up system uniquely designed for skincare professionals.

PACKAGES

'ESCAPE TO HUNTER HOUSE' PACKAGE

£95.00

Indulge yourself in a morning or afternoon of pampering to relax and unwind with our package for one. Includes a polish manicure and polish pedicure and an hour treatment to de-stress with a combination of a back massage and revitalising facial. You will love your 'me time'.

'DOUBLE TROUBLE' PACKAGE

£130.00

Treat yourself and someone special to some much needed pampering. Your treatment commences with a soothing massage to melt away every bit of tension. This is followed by a refreshing facial leaving the skin nourished and glowing. Our peaceful double treatment room is perfect.

'YUMMY MUMMY TO BE' PACKAGE

£80.00

Spoil yourself and take time to relax with a package which is specially designed with you and your bump in mind. Your feet will be in for a treat with a luxurious pedicure, followed by a hand smoothing manicure and finished with a comfortable and relaxing scalp treatment.
